**Claim Rejections - 35 U.S.C. § 103**

Claim 1 stands rejected under 35 U.S.C. § 103(a) as being unpatentable over Abileah (U.S. Patent No. 6,359,671) in view of Miyachi et al. (U.S. Patent No. 6,493,053). Applicants respectfully traverse this rejection in view of the following arguments.

The Examiner acknowledges that Abileah lacks a retardation film with primary refractive indexes which are obtained by rotating the first biaxial ellipsoid at an arbitrary rotational angle
